Subject: NRC Request for Additional Information, Rapiscan letter dated April 7, 2013
Date: Wednesday, April 16, 2014 7:08:55 AM

Good Morning Mr. Shahabidin -

This email is in response to your response dated April 7, 2014 to NRC's Request for Additional Information. We have the following questions:

- (1) Please clarify the statement "[w]hen sold with the HESS will be labeled as + and the entire unit will be known as the HE50+." Specifically, please clarify the meaning of "will be labeled as +," for example, is the designation HE50+ used for internal tracking, or invoicing, etc?
- (2) You stated in your letter that "[o]nce approved, all HE50s will be manufactured to accept the optional HESS attachment." Please note that, in the registration certificate, we must specify the design change between the two versions. Therefore, we need a distinction, such as "units with serial number XXX and above" are suitable for use of the HESS attachment.

Please submit the requested information within 30 days of the date of this email. If we have not received complete information within 30 days of the date of this email, we will consider your request as having been abandoned by you. This is without prejudice to the submission of a new request. The information should be submitted in an official company letter via facsimile at 301-415-5955, mail, or as an attachment to an e-mail.

Thank you,

María del Mar Arribas-Colón, M.S.
