**DOCKET 50-155 - LICENSE DPR-8 - BIG ROCK POINT PLANT -
ANNUAL RADIOACTIVE EFFLUENT RELEASE REPORT FOR 1995**

In accordance with 10 CFR 50.36(a) and Technical Specification 6.9.2.2, the Annual Radioactive Effluent Release Report for 1995 is attached.

Big Rock Point has elected to report the percent Maximum Permissible Concentration (MPC) in the 1995 report as percent Effluent Concentration (EC). The percent EC, was generated using the new concentrations as specified in Appendix B, Table 2 of the revised 10 CFR, Part 20. However, dose calculation to the public as outlined in the "Summary of Radiological Impact on Man", uses the dose factors as specified in Regulatory Guide 1.109 and is consistent with the Big Rock Point Offsite Dose Calculation manual (OOCM), Volume 25.
