UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

MAY 09 1988

MEMORANDUM FOR: John A. Skoczias, Chief
Document Control Branch
Division of Information Support Services
Office of Administration and resources Management

Inez K. Bailey, Chief
Records Services Branch
Division of Information Support Services
Office of Administration and Resources Management

FROM: LeMoine J. Cunningham, Chief
Radiation Protection Branch
Division of Radiation Protection
and Emergency Preparedness
Office of Nuclear Reactor Regulation

SUBJECT: ENTRY OF SOURCE DOCUMENT ON BIG ROCK POINT NUCLEAR PLANT INTO
DCS MICROFICHE FILES AND ARCHIVING IN NRR DOCKET FILES

REFERENCE: 1. "Big Rock Point Nuclear Plant: Effluent and
Environmental Computer Model Description and
Documentation" dated January, 1972.

The enclosed source document cited above contains basic reference information essential to the long term licensing responsibilities of PRPB for Big Rock Point Nuclear Plant. This information is archival in a manner similar to the FSAR and ER of the licensee. Therefore, we request that this document be entered into the DCS system on microfiche so that it can be cataloged and available to all DCS users.

This report should be coded as FDR available in the DCS but no further distribution need be made beyond archiving this original hard copy in Central Files. Because of legibility problems with the microfiche it is essential that one "hard copy" of this document be continually available on the shelves of the Pocket Files for our use in licensing action reviews.

Original signed by LeMoine J. Cunningham
