Matthew McKinley, Administrator
Radiation Health Program
Cabinet for Health and Family Services
Kentucky Department for Public Health
275 East Main St, HSIC-A
Frankfort, KY 40621-0001

Dear Mr. McKinley:

I would like to thank the Kentucky Department for Public Health, Radiation Health Branch for hosting the U.S. Nuclear Regulatory Commission's (NRC's) 2014 Sealed Source and Device Evaluation Workshop, March 31 – April 4, 2014. As you may know, the NRC schedules this workshop periodically to provide training to Agreement State and NRC staff on performing safety evaluations of sealed sources and devices for compliance with the regulatory requirements. In this year's workshop, we had 30 participants from 13 Agreement States and the NRC.

Your staff were of great assistance making arrangements for the workshop venue, which turned out to be very accommodating. We are especially grateful that your group provided the transportation to and from the licensee tours of VEGA Americas and Ronan Engineering on Tuesday and Wednesday, April 1 – April 2, 2014. We received positive comments from participants regarding the these tours, organized and coordinated by Curt Pendergrass of your staff. Also, thank you for providing audio and visual equipment and technical support for the workshop. Your organization's efforts played an essential part in helping make this workshop a success.

Thank you once again.

Sincerely,

/RA/

Margie Kotzalas, Branch Chief
Licensing Branch
Division of Materials Safety and State Agreements
Office of Federal and State Materials
and Environmental Management Programs
