Re: License # 24-16097-01 (Lincoln University of Missouri)

Dear Sir/Madam,

Lincoln University has been issued the above license (24-16097-01) for five year duration (April 2012 - May 31, 2017). Although we have purchased the material and planned to use radioactive labeling in the current project experiment, which was not eventuated due to a various factors, such as resource and grant limitations. Therefore, with consultations of inspection officer (Ryan Craffey) and advice from your branch staff, we have decided to request to modify our current license to 'stand by or storage' status until an active use of radioactive materials on the site again.

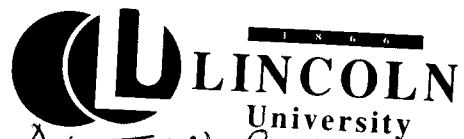

Thank you for consideration of this request.

Regards.

Sincerely,

Tumen Wuliji (PhD), RSO
