Subject: Reply to a Notice of Violation EA-13-244

Dear Sir:

Kuehne Chemical Company has reviewed Notice of Violation EA-13-244 and found it accurately reflects the facts as well as the corrective actions we have taken to prevent recurrence. We would like to provide some follow up information for the Notice of Violation EA-13-244 file regarding the disposal of the source.

The disposal of the source in question was arranged by PADEP. Philo Technics took possession of the source for disposal on January 3, 2014. We received the invoice for the disposal on February 21, 2014 and completed payment on February 25, 2014.

Kuehne Chemical Company is committed to safety, health and the protection of the environment and conforms to Responsible Care® requirements. We provide support and training in safe handling and use of our products and emergency response techniques to our customers and government agencies. Kuehne employees actively participate in the Chlorine Institute, TRANSCAER®, Chlorex, The Chemistry Council of New Jersey and the American Chemistry Council.

We appreciate the professional manner in which NRC and PADEP investigated this incident and the assistance provided with the disposal. If you have any further questions or would like to discuss the matter further please call me directly at (302) 834-4557 extension 2127.

Sincerely,

KUEHNE CHEMICAL COMPANY, INC.

Alan Rogers
Plant Manager
