To Whom It May Concern

Re: Termination of License 21-32495-01

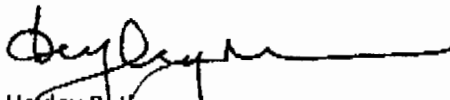

Please find attached NRC Form 314 to terminate above named Nuclear License.

The CardioMD Camera was removed from the building in 2012. The sealed sources were picked up 3/14/2013 and sent to ADCO in Tinley Park, Illinois. Unfortunately, ADCO did not dispose of materials (please see attached emails) and in February 2014 the State of Illinois appointment Bionomics to permanently destroy sealed sources (documentation also attached)

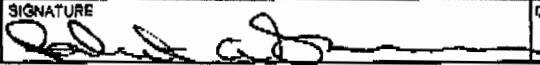

There has been no radioactive material in the building since the sources were picked up by ADCO 3/14/2013. Former hot lab and stress area were surveyed using Ludlum Survey Meter Model 14C - Serial # 219345. All readings were negligible.

If you have any questions regarding this termination please do not hesitate to contact me at (734) 284 2026.

Sincerely

Hayley Roth
Office Manager

NRC FORM 314 (05-2012) 10 CFR 30.36(j)(1); 40.42(j)(1); 70.36(j)(1); and 72.54(k)(5)(1)(1)	U.S. NUCLEAR REGULATORY COMMISSION	APPROVED BY OMB: NO. 3150-0028 Estimated burden per response to comply with this mandatory collection request: 30 minutes. This submittal is used by NRC as part of the basis for its determination that the facility is released for unrestricted use. Send comments regarding burden estimate to the Information Services Branch (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by Internet e-mail to InfoCollect.Resource@nrc.gov , and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0028), Office of Management and Budget, Washington, DC 20503. If a means used to impose an information collection does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to, the information collection. Wyandotte Internal Medicine
1700 Biddle Ave.
Wyandotte, MI 43192
(734) 284-2026

Dear Ms. Roth,

As required by 10 CFR Part 20 (Appendix G), this letter is notification that Bionomics, Inc. has received a shipment of sealed sources, recently picked up at the ADCO facility on **February 20, 2014**.

Please note this material had previously been shipped to ADCO. Bionomics, Inc. was contracted by the Illinois Emergency Management Agency (IEMA) to disposition this material and properly dispose of the material.

This material was originally shipped from your facility on **3/14/13** and has been in storage at the ADCO facility. The material was originally consigned to **TOXCO MMC** and shipped in container **12-0023-01** on manifest **13-0023 L**.

Please keep this letter with your original manifest for tracking purposes. We will send a disposal certification for this material when dispositioned.

Please find attached documentation we will need completed and returned to us so that we may dispose of the material.

If you have any questions please feel free to contact me at (865) 220-8501.

Sincerely,

Paul Nipper
QA Manager

Cc: Mike Klebe - IEMA

Shipment Preparation and Waste Return Conditions

PREPERATION OF WASTE SHIPMENTS

Unless prior arrangements have been made, our agreements call for clients to provide us with containerized wastes ready for shipment. Broker functions (manifesting, labeling, loading, etc.) are typically not considered a licensed activity, however some jurisdictions view any assistance in placing wastes into containers, no matter how minimal, as a licensed activity.

Please review the following and check the box that applies to the type of work Bionomics performs at your facility.

- N/A ☐ Work under Facility license; Bionomics may assist in shipment preparation and will work under our facility license under direct supervision of facility personnel.
- N/A ☐ Reciprocity of Bionomics License; Reciprocity of the Bionomics Tennessee license is required for assisting in the preparation of wastes at this facility.
- N/A ☐ Wastes are prepared by facility personnel, Bionomics provides Broker functions.

WASTE RETURN

Before wastes are shipped from client's locations, a disposal outlet for those wastes has been established. While it is not anticipated that disposal of wastes will be a problem in the future, the State of Tennessee requires that each generator shipping waste to a Tennessee facility indicate that they can and will accept return of their waste. Please indicate below that your facility acknowledges this condition.

☒ Our facility acknowledges that we are able and will accept back our wastes.

Source waste containers from manifest #13-0023 L (01; 02;03) are still in ADCO's possession and are located in ADCO's warehouse. IEMA and NRC are fully aware of this. IEMA plans to use financial surety posted by ADCO Services to dispose of these Source waste containers during the decommissioning of ADCO's facility as ADCO transitions over to a transportation only company vs. a storage facility. These drums are expected to be disposed of this summer.

Good evening,

Can I please get an update on the above manifest so I can update the NRC in regards to the status of the termination of our nuclear license.

Thank you
Hayley Roth

Good evening,

Can I please get an update on the above manifest so I can update the NRC in regards to the status of the termination of our nuclear license.

Thank you

Hayley Roth

Source waste containers from manifest #13-0023 L (01; 02;03) are still in ADCO's possession and are located in ADCO's warehouse. IEMA and NRC are fully aware of this. IEMA plans to use financial surety posted by ADCO Services to dispose of these Source waste containers during the decommissioning of ADCO's facility as ADCO transitions over to a transportation only company vs. a storage facility. These drums are expected to be disposed of this summer.
