SUBJECT: CHICAGO BRIDGE AND IRON LAKE CHARLES RESPONSE TO NUCLEAR
REGULATORY COMMISSION INSPECTION REPORT 99901425/2014-201,
NOTICE OF NONCONFORMANCE

Dear Mr. Presley:

Thank you for your April 17, 2014, letter in response to the Notice of Nonconformance (NON) that was discussed in the subject U.S. Nuclear Regulatory Commission (NRC) inspection report (IR).

We have reviewed your letter and find that it is generally responsive to the NON documented in IR 99901425/2014-201. We have no further questions or comments at this time and may review the implementation of your corrective actions during a future NRC staff inspection to determine whether full compliance has been achieved and maintained.

As requested at the exit meeting conducted on February 3, 2014, your letter provided a status of the self-imposed Stop Work Order initiated on January 13, 2014. The Stop Work Order was lifted on April 8, 2014. You state that in an effort to measure the effectiveness of the actions taken to correct the deficiencies identified in the Stop Work Order, an independent team will perform an audit of your corrective actions. This audit is scheduled to be completed within 60 days of lifting the Stop Work Order. We request that you provide to Ms. Kavanagh a copy of the independent team's audit report.

Please contact Paul Prescott via electronic mail at Paul.Prescott@nrc.gov, if you have any questions or need assistance regarding this matter.

Sincerely,
