SUMMARY

In your request, you have indicated that your RSO has changed positions and you will need to name a new RSO. Please note that you will not be able to change and name your RSO internally; NRC must do that for you via the amendment process. We will need additional information to complete our review of the proposed RSO.

1. The course outline for the training course completed by your proposed RSO do not specifically indicate hands on training was included. Please provide documentation of the hands on training for the proposed RSO. Each proposed RSO must be qualified in accordance with the guidance in NUREG 1556, Vol. 4 Section 8.7, Item 7: Individual(s) Responsible for Radiation Safety Program and Their Training and Experience. Please also provide contact information for Mr. Dutczak.
2. In letter dated January 23, 2014, you have requested to remove several gauge models from your license. For the gauges that have been disposed of, please provide the most current leak test results.
