Re: Engagement of Regulatory Consultant

Dear Ms. Forster:

Given the importance to Molecular Imaging, Inc. of securing prompt and positive resolution to the subject of our Amendment 9 submission regarding the addition of temporary job sites to our NRC license, No. 21-32816-01, we have engaged Ms. Kathy Anderko, of West Physics, as our regulatory consultant. She is empowered to represent and speak on behalf of Molecular Imaging, Inc. with the NRC. We are hopeful that, given her regulatory experience and substantial familiarity with NRC regulations, we can clarify any issues NRC may have and assure that we are providing the information you require to expeditiously address our Amendment 9 request.

We expect Ms. Anderko's name to also shortly be included in a subsequent Amendment 10, which addresses her appointment as our RSO.

Sincerely,

Tom Ludlam Jr
President/CEO
