SUBJECT
Request for additional information

SUMMARY

- 1) The licensee requested to remove AEA Technology 660 System from its license; however, the licensee did not provide sufficient information. If the licensee has never possessed this model, please provide a confirmation. If the licensee possessed this model, please provide a copy of the last leak test and records of the transfer.
- 2) The licensee requested to add AEA Technology Model Nos. 741A and 741B to its license; however, the licensee did not provide the sealed source radionuclide, the maximum activity per source, and the total possession limit. Please provide name of radionuclides, the maximum activity per source and the total possession limit.
- 3) The licensee requested an approval for use licensed materials at 8181 Broadmoor SE, Caledonia, Michigan; however, the licensee did not provide sufficient information regarding this location. If the licensee plans to have a permanent radiography installation (PRI) at this location, please provide the PRI's diagram with a description regarding the dimension (length, width and thickness of the surrounding walls, ceiling and floor), the characteristic of the shielding materials, and the shielding evaluation.
