

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

July 29, 2014

Mr. Michael J. Pacilio
Senior Vice President
Exelon Generation Company, LLC
President and Chief Nuclear Officer (CNO)
Exelon Nuclear
4300 Winfield Road
Warrenville, IL 60555

SUBJECT: DRESDEN NUCLEAR POWER STATION, UNITS 2 AND 3 AND QUAD CITIES
NUCLEAR POWER STATION, UNITS 1 AND 2 - REQUEST FOR
WITHHOLDING PROPRIETARY INFORMATION FROM PUBLIC DISCLOSURE
(TAC NOS. MF3359, MF3360, MF3361, AND MF3362)

Dear Mr. Pacilio:

By letter dated December 19, 2013, (Agencywide Documents Access and Management System (ADAMS) Accession No. ML13354C045), Exelon Generation Company, LLC (EGC) submitted an affidavit (CA W-13-38S1) dated November 11, 2013, executed by James A. Gresham on behalf of Westinghouse Electric Company, requesting that information contained in the following document be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Section 2.390:

Westinghouse Report NF-BEX-13-143 P-Attachment, "Quad Cities 1 & 2 LOCA Analysis for SVEA-96 Optima2 Fuel," Revision 2.

A non-proprietary copy of this document has been placed in the NRC's Public Document Room and added to the ADAMS Public Electronic Reading Room under Accession No. ML13354C045.

The affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

- (a) Public disclosure of this proprietary information is likely to cause substantial harm to the competitive position of Westinghouse.
- (b) Public disclosure of the information would enable others to use the information to meet NRC requirements for licensing documentation without purchasing the right to use the information.

We have reviewed your letter and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of your statements, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, the version of the submitted information marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

M. Pacilio

- 2 -

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future, such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached at 301-415-2020.

Sincerely,

A handwritten signature in black ink, reading "Brenda Mozafari". The signature is written in a cursive style with a large, looping initial "B".

Brenda L. Mozafari, Senior Project Manager
Plant Licensing III-2 and
Planning and Analysis Branch
Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation

Docket Nos. 50-237, 50-249,
50-254 and 50-265
