Dear Mr. Ramsey:

In accordance with the issuance of SS&D registry certificate GA-0716-D-110-S, Georgia Radioactive Material License No. GA 1299-1 has been amended in its entirety. Enclosed is Amendment Number 14, which reflects the addition of the ANALYZER-5 as a model for distribution to persons specifically licensed, and the addition of another source model for the 2600/2800/TBM-201 (GA-0716-D-106-G), as requested in you August 27, 2007 correspondence.

Additionally, I have enclosed the new registry certificate for the ANALYZER-5, and an amended certificate for the 2600/2800/TBM-201, indicating the corrected pages. Copies of the certificates have been forwarded to the NRC for inclusion in the SS&D registry.

Please read this license and other enclosures thoroughly upon receipt. If you should have any questions concerning the license, please contact me via telephone at 404-362-2675, or via electronic mail at ejameson@dnr.state.ga.us.

Sincerely,

Eric T. Jameson
