Dear Licensing Assistant:

South Dakota School of Mines and Technology would like to request the addition of a sealed source to license number 40-27640-01. The sealed source is Ra-226 (Part Number 9999999, Model RN-1025-111.7 kBq Refurbished Act=Custom-S) with an activity of 3.0 μ Ci (111.7 kBq). The source will be purchased from Pylon Calibration Technologies (Central Canada Region). The equipment will be used for research and development into testing the effectiveness of new designs of carbon-based filters at removing radon from gases, for a faculty member that will be hired this summer. Since the individual is not currently on staff, please allow Jerilyn Roberts (Radiation Safety Officer) to be the principal investigator, if required, for processing this request.

Funding is available to purchase this equipment during the current Fiscal year which ends July 1st. If this can be processed by June 1st it will ensure use of these funds.

Sincerely,

Jerilyn Roberts
Facilities & Risk Management Director
