

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20585-0001
May 4, 1994

MEMORANDUM FOR: Jeryll L. Dorsey, Chief
Documents Processing Services Section
Information and Records Management Branch
Division of Information Support Services, IRM

Hazel I. Smith, Chief
Records and Archives Services Section
Information and Records Management Branch
Division of Information Support Services, IRM

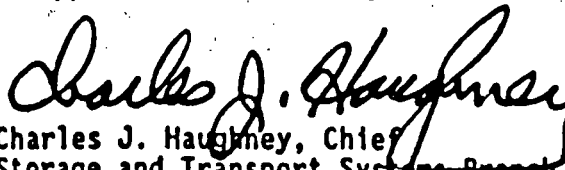

FROM: Charles J. Haughney, Chief
Storage and Transport Systems Branch
Division of Industrial and
Medical Nuclear Safety, NMSS

SUBJECT: BACKFIT OF DOCUMENTS REQUIRED TO BE MADE PUBLICALLY
AVAILABLE AS PART OF PART 72 RULEMAKING

I am again requesting your staff's assistance in processing documents that have previously been docketed as proprietary. Portions of these proprietary documents are to be made available at the public and local document rooms. It has been determined that documents, including proprietary documents, that were relied upon as part of a rulemaking are to be made publically available. Currently, the Proposed Rulemaking 10 CFR Part 72, "List of Approved Spent Fuel Storage Casks: Additions" cites one vendor, Pacific Nuclear Fuel Services, Inc. (Vectra Technologies, Inc.), Docket 72-1004.

The enclosed letter contains the vendor's agreement for release and the list of documents to be released with accession numbers. The release of the documents should coincide with, or be before, the publication of the proposed rulemaking, which is expected to be around May 15, 1994.

If you have any questions on this matter, please call Florence Brown of my staff on 504-2605. We very much appreciated your and your staff's assistance on our previous requests.

Charles J. Haughney, Chief
Storage and Transport Systems Branch
Division of Industrial and
Medical Nuclear Safety, NMSS

Enclosures: Vendor letter with signed approval
and lists
