General Comment

Docket ID NRC-2013-0271

To the Nuclear Regulatory Commission regarding the list of approved spent fuel storage casks:

As a member of the public, a mother and a teacher I am writing to express concern about storing spent fuel casks in a less than safe manner. I am all too aware of the dangers of nuclear waste, and its leakage. I understand that this method severely compromises the relative safety of spent fuel storage. Please do all you can to ensure the utmost care has been taken to protect the public and the environment.

Sincerely,

Ruth Sakheim
