Subject: Confirming our October 3 Denver meeting and meeting registration instructions

Greetings,

The Waste Confidence Directorate and the NRC's regional staff have been monitoring the flooding situation that is affecting parts of Colorado. We have also been in touch with officials from the State of Colorado. We understand that while some areas of the state are heavily impacted by flooding, many roads have been re-opened and our meeting location (Crowne Plaza Denver International Airport Convention Center) is safe and accessible. Although this may cause some individuals hardship in making it to the meeting in Denver, we believe it is important to continue with the process of collecting comments on the draft generic environmental Impact statement and proposed rule. Therefore, we intent to proceed with the Denver public meeting as planned, on October 3. For those individuals who were originally intending to participate in the Denver meeting, but are now unable to attend, we suggest that you call in to one of the two webcast meetings that are being held in Rockville, Maryland, on October 1 and November 14.

In that regard, we would like to remind everyone that if you are interested in presenting oral comments at the October 3 meeting in Denver, or at any of our 12 public meetings, we encourage you to pre-register online or by phone:

- Register online at <http://www.nrc.gov/waste/spent-fuel-storage/wcd/wcd-public-mtg-reg.html>
- Register by phone - (301) 287-9392

You may also register to provide oral comments in-person at the start of each meeting. Individual oral comments may be limited by the time available, depending on the number of persons who register.

For more information about our 12 public meetings please go to our Waste Confidence Public Involvement webpage: <http://www.nrc.gov/waste/spent-fuel-storage/wcd/pub-involve.html#schedule>.

If you have any questions about the upcoming public meetings or the Waste Confidence public comment period, please call Sarah Lopas at (301) 287-0675 or e-mail her at Sarah.Lopas@nrc.gov.

Thank you,

Staff of the Nuclear Regulatory Commission
Waste Confidence Directorate
