## **Vendor Information Request**

- **The NRC's vendor inspection program performs inspections at contractor and vendor facilities to examine whether the vendor has been complying with Appendix B to Title 10, Part 50, of the Code of Federal Regulations (10 CFR Part 50), as required by procurement contracts with licensees.**
- **There are multiple methods currently used to collect information for interfaces with vendors and coordinate vendor inspections; however, these methods may not fully capture the number and variety of contractors and vendors supplying basic components and safety-related services.**
