NRR

Six Regarding Supplemental Response to NRC Request for Information Pursuant to 10 CFR 50.54(f) Regarding the Flooding Aspects of Recommendation 2.1 of the Near-Term Task Force Review of Insights from the Fukushima Dai-ichi Accident, dated April 25, 2014.

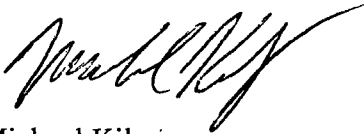

References 1 and 2 submitted FPL's responses to NRC RAI questions on the Turkey Point Flooding Harzards Re-evaluation Report submitted in Reference 3. Reference 4 submitted supporting documentation and references used in FPL's response to the RAIs. Reference 5 submitted a revised response to RAI question 6 due to changes in the calculation used for determining maximum flood levels.

The purpose of this letter is to provide the revised computer files from the FLO-2D model previously submitted in Reference 4 that were used in developing the revised RAI question 6 response. The CDs with the FLO-2D computer files are enclosed.

This letter does not include any additional and or new regulatory commitments.

Should you have any questions concerning the content of this letter, please contact Mr. Robert J. Tomonto, Turkey Point Licensing Manager, at 305-246-7327.

Sincerely,

Michael Kiley
