RE: Liscnce application for Tapio Paper Variabilty Analyzer, State of Georgia

I hope that You have had enough time to study the paper work I sent to You (concernig the TAPIO BW-2h55 basis weight transducer).

I was wondering if you could update us what's Your opinion of the situation (hardware wise) now. Since I'm leaving for one week vacation, could you pls send a fax about the matter.(My boss is egearly waiting for info).

My fax number :011-358-0-4354 3131.

SUBJECT: STATUS OF REVIEW OF BW-2h55 BASIS WEIGHT SENSOR

I am planning to mail you a letter regarding this subject in approximately a week. It will contain copies of the correspondence which we have received during the past year regarding the sensor, and a draft version of a REGISTRY DOCUMENT for this unit. The final version of this document will be issued by our agency when the review is complete. Some of the correspondence from the past year will be referenced as supporting documentation for the approval of this sensor in the final version of the REGISTRY DOCUMENT.

Therefore with regards to my upcoming letter, I will need your answers to any additional questions concerning the hardware, and your approval to use the correspondence "REFERENCED" on the final page of this "DRAFT REGISTRY DOCUMENT" or the correspondence resubmitted under the signature of an authorized representative for TAPIO Technologies. Again, as stated during earlier telephone conversations a final approval for this sensor can not be issued by this agency until a distributor based in the state of Georgia has been selected by TAPIO Technologies, and the distributor has received a license or an amendment to an existing license to distribute this unit.

IMPORTANT: IF A DISTRIBUTOR IS IDENTIFIED OUTSIDE THE STATE OF GEORGIA, TAPIO Technologies WILL HAVE TO RESUBMIT THE ENTIRE PACKAGE OF INFORMATION TO EITHER THE STATE OR FEDERAL AGENCY WHICH HAS THE JURISDICTION FOR THAT AREA
