**Subject:** GA 596-D-111-G ready for issue

Jim --

Attached is a summary of our phone conversation on Friday, 31 May 1996 at ~ 11:30 am. This was in regards to the draft device registry.

Later this afternoon, the registry will be issued as final. A copy of the final registry will be forwarded to you, with the License Amendment to GA 458-3G to follow soon after.

A note has been made that page 9 of the registry, the drawing of Model BW-5h23, being a copy, is temporary, and will be removed as soon as an original drawing is received.

If you have any questions, do not hesitate to contact us.

Eric Jameson

## Summary of Telephone Conversation

**Participants:** Eric Jameson, Radiological Health Specialist  
GA Radioactive Materials Program

Jim Hoey, Radiation Safety Officer

Valmet Automation (USA), Inc

**Date:** May 31, 1996

**Time:** 11:15 hours

**Duration:** 15 minutes

JH: I have completed review of the draft device registry for the Basis Weight Series to include the Model BW-5h23. It is accurate; all information submitted has been incorporated. I will arrange to have the device installed on Monday, 3

June, if that is possible.

EJ: I will start the signature process this afternoon. Hopefully, I will be able to have the signed document to you by the end of business today. If not, it can be faxed to you in WI on Monday.

JH: Let me give you the following numbers to get in touch with me while in WI: cellular phone -- 404-680-4665; Hotel (Paper Valley Hotel) -- 414-733-8000. I could give you a fax number at that time. Also, I can be reached at my home office, 770-972-1217, the remainder of today if you have any questions.
