Subject: Tappio device eval (GA 0596-D-111-G)

Jim --

In order to expedite the device evaluation for the BW-5h23, we will need a copy of the calibration certificate for the Smart ION Ion Chamber Survey Meter identified in correspondence with Seppo Vaisala dated 3/15/96.

Please fax this to my attention at 404-362-2653. If you have any questions, feel free to call our office at 404-362-2675.

Thank you
Eric Jameson
