**RE: Expediency please for continuity of patient care services. Please process concurrently.  
New license for Associates in Medicine, P.C. and amendment removing this site from License #21-11651-01.**

Dear Madam or Sir:

We are requesting the following actions:

**New License / Removal of Address**

We wish to apply for an NRC license for the following address of use:

**Associates in Medicine, P.C.  
1695 W. Twelve Mile Road, Suite 200  
Berkley, MI 48072**

This should be concurrent with the removal of the address from Materials License 21-11651-01, which dictates the removal by July 1, 2014. The reason for this simultaneous request is to prevent any disruption of clinical practice or patient care. On Friday, June 27, 2014 daily surveys and weekly wipes will be performed at this address. As of Monday, June 30, 2014 radioactive sources and waste, along with daily operations will transfer to Associates in Medicine, P.C. license.

In support of this request we have enclosed the license application for Associates in Medicine, P.C.

Sincerely,

Stig Aronsson, M.D.  
Executive Management  
Associates in Medicine, P.C.

**RE: Radiation Safety Officer / Executive Management  
Letter of Understanding**

Dear Dr. Choksi,

You have been appointed the Radiation Safety Officer (RSO) of this facility for our United States Nuclear Regulatory Commission Materials License. This "Letter of Understanding" is prepared to comply with Title 10 Code of Federal Regulations (CFR) Part 35.24 (b). This section of the regulations requires that you agree in writing to the following:

- Assume responsibility for implementing the Radiation Protection Program
- Ensure that radiation safety activities are being performed in accordance with our own approved procedures and all regulatory requirements.

Furthermore, in compliance with 10 CFR 35.24 (e), (g), the executive management of this facility agrees to provide you as RSO:

- Specific written notation of your authority, duties and responsibilities, see attached.
- Sufficient authority, organizational freedom, time, resources and managements prerogative to:
  1. Identify radiation safety problems;
  2. Initiate, recommend, or provide corrective actions;
  3. Stop unsafe operations; and,
  4. Verify implementation of corrective actions.

Our signatures noted below will attest to the issues noted above. Please make a copy of this document for your files and return the original to my attention.

Sincerely,

Stig Aronsson, M.D.  
Executive Administration, Associates in Medicine
