Sunbelt Laboratories, Inc.  
ATTN: Mark J. Breitnauer  
Radiation Safety Officer  
1410 Gail Borden Place, Suite C-5  
El Paso, Texas 79935

SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 42-27579-01

By electronic communication dated March 28, 2014 you informed the U.S. Nuclear Regulatory Commission (NRC) that Sunbelt Laboratories, Inc. wished to terminate NRC radioactive materials license number 42-27579-01. The NRC Form 314 dated March 30, 2014 stated that all radioactive material have been transferred to several licensed entities.

The NRC staff has reviewed the supporting documentation to your NRC Form 314. The documentation included copies of the most recent leak test results showing that there was no evidence of leakage of radioactive material from the sealed sources. Based on the documentation submitted and a review of your historical file, the staff concluded that all licensable radioactive material is no longer stored and/or used at temporary job sites of the licensee in NRC jurisdiction. No further remediation with respect to NRC regulated material is required.

Please find enclosed Amendment No. 04 to License No. 42-27579-01 authorizing your license termination. An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(c)(20)(ii).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You can contact me at 817-200-1189 if you have questions on any of the information stated above.

Sincerely,

**/RA/**
