STRATA ENERGY, INC. )  
 ) Date: May 30, 2014  
(Ross In Situ Uranium Recovery Facility) )

**APPLICANT STRATA ENERGY, INC'S MONTHLY UPDATE TO INITIAL  
MANDATORY DISCLOSURES**

Pursuant to 10 C.F.R. § 2.336(a) & (b), Strata Energy, Inc. (Strata) hereby submits its May 30, 2014, monthly update to its mandatory disclosures for this proceeding:

**1. Potential Testifying Witnesses**

At the current time, Strata has no additions to the previously disclosed proposed witness list. However, now that the scope of the admitted contentions is fully defined, Strata plans to provide the Licensing Board with its final witness list on the next mandatory disclosure update deadline which is July 2, 2014 or prior to such date.

**2. Documents and Data Collections**

Strata's initial mandatory disclosure submission included a detailed breakdown of documents that potentially will be relied upon during the administrative hearing process. Strata has no additions to the previously disclosed document list. In the event that additional documents are identified, Strata will provide those as expeditiously as possible on a

monthly basis. With respect to amended Contention 2 and the specific amendment made to that Contention (i.e., a challenge to NRC Staff's FSEIS), Strata does not currently have any additions to its document disclosure list outside of those contained in the administrative record and record of decision, as well as those previously disclosed by Strata or by NRC Staff in its hearing file updates..

Additionally, given that the scope of the contentions is now fully understood (absent summary disposition), Strata plans to provide its final document disclosure list on the next mandatory disclosure deadline which is July 2, 2014 or prior to that date. Per applicable regulations, I certify that these disclosures are correct to the best of my knowledge.

Respectfully submitted,

**/Signed (electronically) by/ Christopher S. Pugsley**
