(Ross In Situ Uranium Recovery Facility) )

**LICENSEE STRATA ENERGY, INC'S MONTHLY UPDATE TO INITIAL  
MANDATORY DISCLOSURES**

Pursuant to 10 C.F.R. § 2.336(a) & (b), Strata Energy, Inc. (Strata) hereby submits its June 2, 2014, monthly update to its mandatory disclosures for this proceeding:

**1. Potential Testifying Witnesses**

At the current time, Strata has no additions to the previously disclosed proposed witness list. However, now that the scope of the admitted contentions is fully defined, Strata plans to provide the Licensing Board with its final witness list on the next mandatory disclosure update deadline which is July 2, 2014 or prior to such date.

**2. Documents and Data Collections**

Strata's initial mandatory disclosure submission included a detailed breakdown of documents that potentially will be relied upon during the administrative hearing process. Strata has no additions to the previously disclosed document list other than those documents previously disclosed by Strata or by NRC Staff in its monthly hearing file updates. In the event that additional documents are identified, Strata will provide those as expeditiously as possible on a

monthly basis. Further, given that the scope of the contentions is now fully understood (absent summary disposition) and our witnesses have commenced preparation of our initial statements of position and written testimony, Strata plans to provide its final document disclosure list on the next mandatory disclosure deadline which is July 2, 2014 or prior to that date as we are informed of documents that support our case. To the extent that any further documents come to our attention after that disclosure date, they will be provided in accordance with the Licensing Board's requirement for disclosures on or about the 2<sup>nd</sup> of each month. Per applicable regulations, I certify that these disclosures are correct to the best of my knowledge.

Respectfully submitted,

**/Signed (electronically) by/ Christopher S. Pugsley**
