Thanks Michael:

DNMS

I acknowledge receipt of the 3 documents – completed Appendix F, leak test results and email string.

Please submit an amendment request (cover letter including the license number and docket number) on your letterhead indicating which location you want removed from your license or indicate which authorized location of use was transferred to the other licensee, Strata, as appropriate. We will set up the amendment request separate from the renewal request but try to incorporate the amendment when the renewal license is issued.

Thanking you in advanced for your assistance and understanding in this matter,

Ms. Jacqueline "Jackie" D. Cook
Senior Health Physicist

Subject: Tetra Tech licence 25-29408-01 Change of Control/ Ownership

Dear Ms. Cook

Pursuant to your email and our conversation regarding the sale of a portion of Tetra Tech's (NRC license No. 25-29408-01) radioactive inventory, I have attached a completed form, a list of inventory (to be transferred) and leak test results for the devices involved in the sale. The sale is to a Transferee (Strata) who is a current NRC license holder (NRC License No. 11-27320-01). The transferee has also filed an amendment to their license to account for this transfer. Please see the attached email string regarding the transferee's correspondence with the NRC regarding the same transfer of radioactive materials. Please let me know if you have questions or concerns or if there are additional items you may need.

Respectfully Submitted,

Michael Connolly
Construction Materials Engineering Manager

Tetra Tech Inc.
