

Industry Proposed Alternative to Substantive Cross-Cutting Issue Process Public Meeting

U.S. Nuclear Regulatory Commission

May 20, 2014

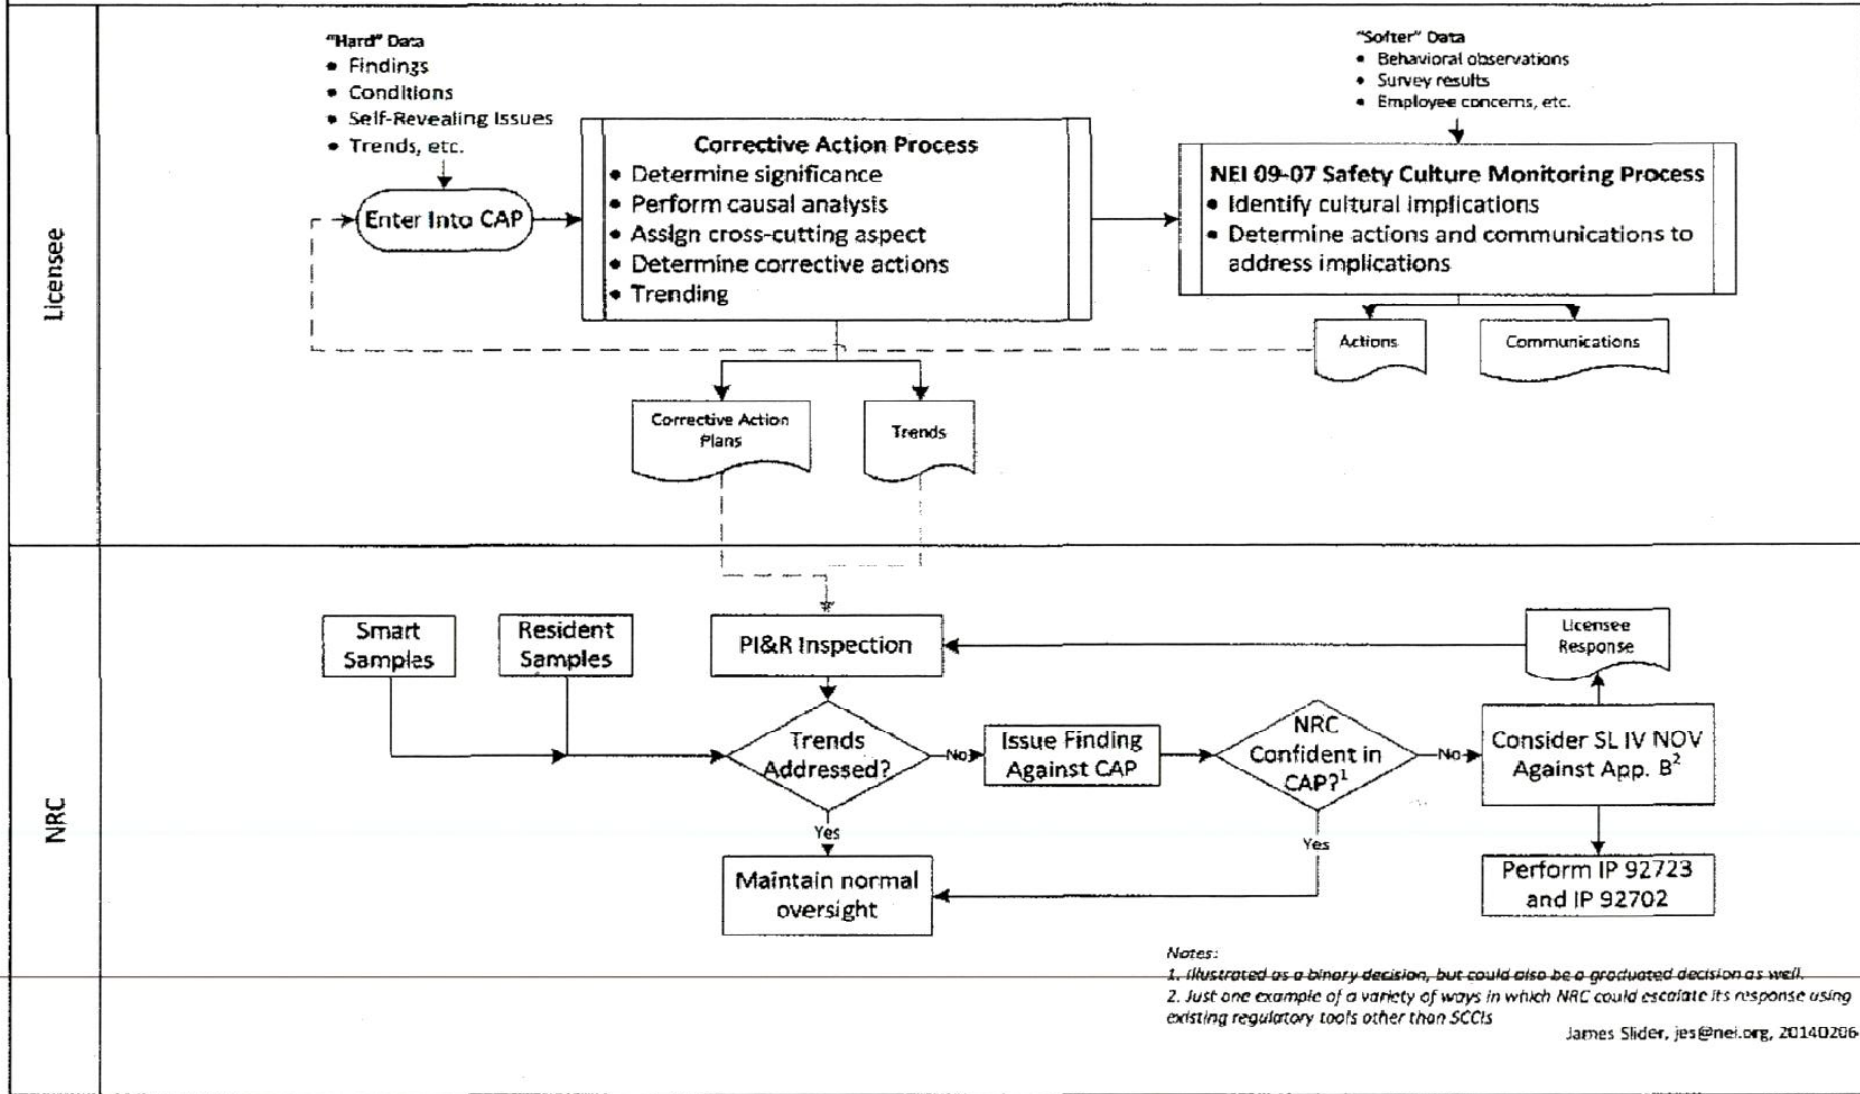

Agenda

- Introductions and purpose of meeting
- General Discussion
- Public Comments

Attachment
Industry Comments on Assessment for the ROP Enhancement Project
Substantive Cross Cutting Issues

Alternative Model for Oversight in Lieu of Substantive Cross-Cutting Issues
Concept Paper for Discussion at SCCI Meeting on February 5, 2014

Notes:
 1. Illustrated as a binary decision, but could also be a graduated decision as well.
 2. Just one example of a variety of ways in which NRC could escalate its response using existing regulatory tools other than SCCIs
