Subject: Renewal Application Discussion

Discussion: I called Dr. Tongson to ask for an update on the information requested via e-mail on March 27, 2014. Dr. Tongson said that the University staff had decided to begin decommissioning and terminate the license. He said the sources had not been used in many years, that they were not in use, and that they were secured at the facility. Dr. Tongson said that the University was in the process of arranging for removal and disposal of the material through a licensed company that was experienced in health physics. I asked Dr. Tongson to submit a letter stating that they no longer wished to renew the license and that they intend to begin decommissioning. I informed him of the need to submit a license termination letter and NRC Form 314 when the material is transferred to the licensed disposal company and decommissioning is complete. He said he understood.

Action Required: Licensee to submit a letter of intent to begin decommissioning.
