SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 25-27027-01

By letter dated April 15, 2014, you informed the U.S. Nuclear Regulatory Commission (NRC) that Graymont Western US Inc., wished to terminate NRC license number 25-27027-01. The NRC Form 314 dated April 16, 2014 stated that all radioactive material have been transferred to a licensed entity.

The NRC staff has reviewed the supporting documentation to your NRC Form 314. The documentation included copy of the most recent leak test results showing that there was no evidence of leakage of radioactive material from the sealed sources. Based on the documentation submitted and a review of your historical file, the staff concluded that all licensable radioactive material has been removed from your facility. Your facility located at Indian Creek Plant, 4.5 miles west on Indian Creek Road, Townsend, Montana, is suitable for unrestricted use in accordance with 10 CFR 20.1402, "Radiological Criteria for Unrestricted Use." You can contact me at 817-200-1189 if you have any questions about this action.

Please find enclosed Amendment No. 06 to License No. 25-27027-01 authorizing your license termination. An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(c)(20)(ii).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

/RA/

Roberto J. Torres, M.S., Senior Health Physicist
Nuclear Materials Safety Branch B
