SUBJECT: REQUEST FOR ADDITIONAL INFORMATION

Dear Mr. Cabrera:

This refers to your Application for Materials License, NRC Form 313, dated July 26, 2013, and subsequent replies to our Requests for Additional Information (RAI), regarding renewal of your exempt-distribution License No. 29-27907-01E. We do not have sufficient information to complete the review of your application. In accordance with the requirements of 10 CFR 32.14, please provide the information described in the enclosure to this letter.

As we discussed in our telephone conversation of May 28, 2014, this is our fourth RAI. The responses you provided to the previous RAIs did not fully and clearly address the regulatory requirements in Title 10, Code of Federal Regulations, Part 32. In addition to providing responses to those issues that are still outstanding, we request that you consolidate your responses to all of the questions in our first and second RAIs and resubmit them in one document. The purpose of this is to avoid creating a disjointed record of documents under License Condition 14, which lists the documents containing your statements, representations, and procedures.

If we do not receive your reply within thirty (30) calendar days from the date of this letter, it will be necessary to deny your application for license renewal and to terminate your license. This action would require you to cease distribution of electron tubes (lamps) and glow switches that are covered by this license.

In accordance with 10 CFR 2.390 of NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in NRC's Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

Any correspondence regarding your amendment application should reference Control Number 581464.

If you have any questions, please feel free to contact me at (301) 415-1727, or Richard Struckmeyer of my staff at (301) 415-5477, or electronic mail: richard.struckmeyer@nrc.gov.
