Bloomfield Hills, MI 48302

Dear Dr. Mellen:

Enclosed is Amendment No. 61 to your NRC Material License No. 21-16754-01 in accordance with your request to remove the location of use in Madison Heights, Michigan, and to add a new location of use in Flint, Michigan. Please note that we have also modified your license to reflect current licensing policy, in that we have modified Subitem 8.C to specify an amount, and have removed Condition No. 13 pertaining to decommissioning funding plan (and have renumbered subsequent conditions accordingly), as it is not applicable to the current scope of your program. Please note that the changes made to your license are printed in **bold font**.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

In accordance with Title 10, *Code of Federal Regulations* (CFR) 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,
