Subject: RSO position at St. Vincent's Medical Center
Date: Tuesday, May 27, 2014 10:50:00 AM

Licensee: St. Vincent's Medical Center
License No. 06-00843-03
Docket No. 030-01245
Mail Control 583798

Dear Mr. Mathews, in support of the request to name you as RSO, we need the following additional information:

1. Please submit a copy of the Baylor Health Care System license listing either you as RSO or Dr. Bruner as an authorized individual.
2. Please confirm that authorized users and authorized medical physicists at St. Vincent's will instruct you on the facilities' operating and emergency procedures, including procedures for all therapeutic radiopharmaceuticals used, high dose-rate remote afterloader use, and microsphere use.
3. It appears that you may be an outside consultant\contractor. If this is so, in support of this request, please address the following:
 - a. Describe the control over the radiation safety program that will be delegated so that the consultant-RSO will be able to exercise authority over authorized users when confronted with radiation safety problems that require implementation of corrective actions.
 - b. Describe the relationship that will exist between the consultant-RSO and the institutional management regarding expenditure of funds to facilitate the objectives of your radiation safety program and related regulatory requirements.
 - c. Identify other commitments of the consultant-RSO for other NRC or Agreement State licensed facilities, along with a description of how the consultant-RSO will allocate time to permit the performance of the duties of the RSO as described in the regulations. State the consultant-RSO's minimum amount of on-site time (hours per week).
 - d. Appoint an in-house representative who will serve as the point of contact during the RSO's absence. This person may be allowed to assist the consultant RSO with limited authority.
 - e. Describe the overall availability of the consultant-RSO to respond to questions or operational issues that arise during the conduct of your radiation safety program and related regulatory requirements. Specify the maximum amount of time it will take the RSO to arrive at the facility in the event of an emergency that requires his presence.

Please submit the information, signed by senior management, either via pdf to my email

address or via fax to 610-337-5269. Please reference the mail control no. 583798 in your response. Thank you for your assistance,

Penny Lanzisera
