John M. Moses, Acting Deputy Director  
Division of Materials Safety and State Agreements  
Federal and State Materials and Environmental Management Programs  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

Dear Mr. Moses,

Ohio has amended rules in the Ohio Administrative Code. We are submitting the final rules to the NRC for your review to ensure that they are compatible with NRC regulations. The rules were amended in accordance with RATS ID number 2013-1 and comments you provided in your letter dated February 20, 2014. A chart to aid you in cross referencing the Ohio rules to the applicable NRC regulations is attached. The draft Ohio rules can be found at <http://www.odh.ohio.gov/rules/final/finalrules.aspx>. The rules will be effective October 1, 2014.

We believe that these Ohio rules satisfy the compatibility and health and safety categories established in the Federal and State Materials and Environmental Management Programs procedure SA-200.

If you have any questions, please feel free to contact Mark Light of my staff at 614-644-2727 or [Mark.Light@odh.ohio.gov](mailto:Mark.Light@odh.ohio.gov).

Sincerely,

Michael J. Snee, Chief  
Bureau of Radiation Protection
