MEMORANDUM TO: Anthony T. Gody, Director
Division of Fuel Facility Inspection
Region II

FROM: Marissa G. Bailey, Director **/RA/**
Division of Fuel Cycle Safety
and Safeguards
Office of Nuclear Material Safety
and Safeguards

SUBJECT: PROGRAM MODIFICATION REGARDING HONEYWELL
METROPOLIS WORKS CORE INSPECTION EFFORT

In your letter dated May 27, 2014 (ML14147A332), you described a proposed modification to the Inspection Program for the Honeywell Metropolis Works Inc. facility (HMW) in accordance with Inspection Manual Chapter (IMC) 2600 Section 08.03.

HMW performed an emergency preparedness exercise on May 16, 2013, to implement a commitment of Confirmatory Order EA-12-157. The inspection schedule prepared by Region II for calendar year 2014 included an evaluation of HMW's annual emergency exercise in accordance with Inspection Procedure 88051. Appendix B to IMC 2600 requires that emergency exercises be evaluated on a biennial basis.

Based on a review of the inspection activities performed by Region II in conjunction with the exercise, as documented in Inspection Report 40-3392/2013-003, staff determined that HMW satisfied the required elements for crediting those activities as an evaluated emergency exercise. Region II has proposed formally accepting the 2013 inspection as a biennial graded exercise, with the next graded exercise to occur in calendar year 2015.
