Subject: Release of formerly restricted product: GAO-14-293, Nuclear Nonproliferation: Additional Actions Needed to Increase the Security of U.S. Industrial Radiological Sources, 361452

GAO will release the following previously restricted product to the public today. Until then, use the secure link below to access the product.

GAO-14-293

Nuclear Nonproliferation: Additional Actions Needed to Increase the Security of U.S. Industrial Radiological Sources

<http://www.gao.gov/prerelease/0Gz6>

This report contains recommendations to your agency. As you know, 31 U.S.C. 720 requires the head of a federal agency to submit a written statement of the actions taken on our recommendations to the Senate Committee on Homeland Security and Governmental Affairs and to the House Committee on Oversight and Government Reform not later than 60 calendar days from the date of the report and to the House and Senate Committees on Appropriations with the agency's first request for appropriations made more than 60 calendar days after that date. Since the congressional requester has asked that the distribution of the report be restricted, as provided by GAO's Congressional Protocols, the 60-day period begins on the date the report is released and e-mailed to you. Because agency personnel serve as the primary source of information on the status of recommendations, GAO requests that you also provide GAO with a copy of your agency's statement of action to serve as preliminary information on the status of open recommendations. Please send your statement of action to LEVIS, GLEN S (levisg@gao.gov) or to me at (trimbled@gao.gov).

We appreciate the assistance and cooperation of your staff during our review.

David C. Trimble

Director, Government Accountability Office: Natural Resources and Environment

After public release later today, the following link should be used to obtain the product.
