Discussion: The State of West Virginia Division of Waste and Water Management (WV DWWM) was called to determine if Kuraray America, Inc. (Kuraray) had any current air, water, or solid waste permits to operate within the State of West Virginia. Ms. Mavis Layton said that there were no permits in the database; Mr. Patel, Assistant Director of the Division of Water and Waste Management, stated that DuPont had contacted his office and proposed that Kuraray would operate under the DuPont permit until the Kuraray permits were applied for and issued. Also, Ms. Layton verified that the company was known to the WV Secretary of State and had been registered with them since 2009. Ms. Layton verified Kuraray's corporate address (Houston, TX) was as stated in the application for NRC license. The WV Secretary of State website was used to verify the Kuraray business registration.

Mr. Richard Bonar, the RSO for DuPont at the West Virginia site where Kuraray is taking over the business process unit requiring a license, stated that he was aware of the sale of the unit to Kuraray, and that he has worked with John Adkins, the proposed Kuraray RSO for years. Mr. Bonar was familiar with the licensing requirements and stated that the licensed program was being controlled by DuPont until Kuraray's license was issued.
