Attn: Amendment Request
475 Allendale Road
King of Prussia, PA 19406-1415

To the Licensing Assistance Team,

Subject: Amendment Request – License # 44-30394-01

Beck Engineering is requesting to amend our existing materials license to allow our company to increase the number of portable gages from 1 to 3. Our existing gage is aging and the electronics in it are not as reliable as they once were. In order for us to properly service our customers, we need to have a backup gage. We intend to purchase one additional gage at this time; however we would like to be able to keep our options open. Amending our license to allow three gages should provide us with the flexibility we need to properly service our customers.

Thank you for your assistance with this matter. If you have any questions regarding this request, please call at the above listed telephone number.

Respectfully,

Matthew H. Beck, PE
President/Owner/RSO
