Carolina Power and Light Company
ATTN: Mr. J. A. Jones, Senior Executive
Vice President and Chief
Operating Officer
411 Fayetteville Street
Raleigh, NC 27602

Gentlemen:

Subject: Report No. 50-261/81-07

This refers to your letter of July 30, 1981, informing us of steps you have taken to correct the significant health physics appraisal findings and violations concerning activities under NRC Operating License No. DPR-23 brought to your attention in our letter of June 26, 1981. We will examine your corrective actions and plans during subsequent inspections.

In your response, you denied violation D.(2) and provided additional information to support the denial. Based on our review of the additional information you provided, violation D.(2) cited in Appendix A, and transmitted by our letter of June 26, 1981, is hereby withdrawn and our records will be changed accordingly.

In your response to violation E, you proposed a change to 10 CFR 20.301 to exempt specified concentrations from its coverage. A change to this effect is under consideration by the NRC. Your proposal will be considered in the development of this change.

We appreciate your cooperation with us.

Sincerely,

Martin
