Gentlemen:

SUBJECT: NRC INSPECTION REPORT NO. 50-261/90-02

Thank you for your response of April 9, 1990, to our Notice of Violation issued on March 8, 1990, concerning activities conducted at your H. B. Robinson facility. We have evaluated your response and found that it meets the requirements of 10 CFR 2.201. It is our understanding that a supplemental response will be issued by May 11, 1990, addressing additional actions to be taken to ensure that the format of other operations surveillance test procedures does not result, either directly or indirectly, in a personnel error or reactor trip. We will examine the implementation of your corrective actions during future inspections.

We appreciate your cooperation in this matter.

Sincerely,
