REVISION TO PREPARATION AND SCHEDULING OF
OPERATOR LICENSING EXAMINATIONS

In our response to NRC Regulatory Issue Summary 2013-06, Serial No. 13-378, dated July 19, 2013, Dominion provided information regarding proposed site-specific operator licensing examination schedules and the estimated number of applicants planning to take those examinations and/or the NRC's generic fundamentals examinations (GFEs). Therefore, DNC hereby submits a revised NRC Form 536 for Millstone Power Station Unit 2 with a 2015 revision in the GFE schedule. Enclosed is the updated Form 536. DNC requests your consideration for this additional class. No new commitments are intended by this letter.
