Gentlemen:

SUBJECT: NRC INSPECTION REPORT NO. 50-261/91-13

This refers to the inspection conducted by G. R. Wiseman of this office on April 8-11, 1991. The inspection included a review of activities authorized for your Robinson facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

Within the scope of the inspection, violations or deviations were not identified.

We were concerned about the implementation of your fire protection program as provided in GL 86-10 and GL 88-12. This report documents licensee commitments to submit a license amendment request to implement GL 86-10.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room.
