

ENCLOSURE 1

NOTICE OF VIOLATION

Carolina Power and Light Company
H. B. Robinson Unit 2

Docket No. 50-261
License No. DPR-23

During the NRC inspection conducted on July 17 - August 7, 1992, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure For NRC Enforcement Actions," 10 CFR Part 2, Appendix C, the violation is listed below:

Technical Specification 6.5.1.1.1.a requires that written procedures be implemented for activities covered in Appendix A of Regulatory Guide 1.33, revision 2, February 1978. Appendix A, item 5, requires that each safety-related annunciator have its own written procedure. Alarm procedure APP-006-E7 was written to provide instructions to address high and low levels in the condensate storage tank (CST). This procedure requires the operator to stop the source of the CST makeup water.

Contrary to the above, on July 23, 1992, written procedures were not implemented in that when a CST high level alarm was received the source of the CST makeup water was throttled instead of being stopped as required by procedure APP-006-E7.

This is a Severity Level V violation (Supplement I).

Pursuant to the provisions of 10 CFR 2.201, Carolina Power and Light Company is hereby required to submit a written statement or explanation to the U. S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555, with a copy to the Regional Administrator, Region II, and a copy to the NRC Resident Inspector, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an order may be issued to show cause why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.
