

ENCLOSURE 1

NOTICE OF VIOLATION

Carolina Power and Light Company
H. B. Robinson Unit 2

Docket No. 50-261
License No. DPR-23

During the NRC inspection conducted on November 14 - December 11, 1992, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure For NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1992), the violation is listed below:

- A. Technical Specification 6.5.1.1.1.a requires that procedures be established for activities referenced in Appendix A of Regulatory Guide 1.33, Revision 2, February 1978. Appendix A item 7.e.4 requires procedures for contamination control. HPP-001, Radiation Control Area Surveillance Program, revision 36, was established to provide instructions for contamination control. Step 10.1.8.7 of HPP-001 required that each contaminated process equipment area (CPEA) be conspicuously posted.

Contrary to the above, on November 12, 1992, HPP-001, step 10.1.8.7 of HPP-001 was not implemented in that the charging pump room was not posted as a CPEA, despite equipment contamination levels in the charging pump room meeting the CPEA definition of HPP-001.

This is a Severity Level IV violation (Supplement IV).

Pursuant to the provisions of 10 CFR 2.201, Carolina Power and Light Company is hereby required to submit a written statement or explanation to the U. S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555, with a copy to the Regional Administrator, Region II, and a copy to the NRC Resident Inspector, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an order may be issued to show cause why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.
