Docket No.: 50-261
License No.: DPR-23

Carolina Power and Light Company
ATTN: Mr. C. R. Dietz
Vice President
H. B. Robinson Steam Electric Plant,
Unit 2
P. O. Box 790
Hartsville, SC 29550-0790

Gentlemen:

SUBJECT: NOTICE OF VIOLATION
NRC INSPECTION REPORT NO. 50-261/93-18

This refers to the inspection conducted by W. T. Orders of this office on July 10 - August 14, 1993. The inspection included a review of activities authorized for your H. B. Robinson facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

Based on the results of this inspection, certain of your activities appeared to be in violation of NRC requirements as specified in the enclosed Notice of Violation (Notice). The first violation is of concern to the NRC because it represents a multi-faceted programmatic issue dealing with design control, with contributors of corrective actions, post modification testing and post modification testing deficiencies. This deterioration in your design control process, culminated in the Reactor Auxiliary Building Ventilation System being degraded for an extended period of time.

You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. In your response, you should document the specific actions taken and any additional actions you plan to prevent recurrence. After reviewing your response to this Notice, including your proposed corrective actions and the results of future inspections, the NRC will determine whether further NRC enforcement action is necessary to ensure compliance with NRC regulatory requirements.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be placed in the NRC Public Document Room.

The responses directed by this letter and its enclosed Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, Pub. L. No. 96-511.
