Carolina Power and Light Company
ATTN: Mr. W. Cavanaugh, III
President and COO
P. O. Box 1551

Gentlemen:

SUBJECT: COMPLETION OF ACTIONS SPECIFIED IN CONFIRMATORY ACTION LETTER
(CAL) - H. B. ROBINSON UNIT 2

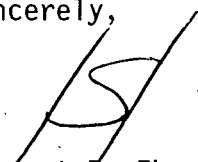

This letter documents our telephone discussion with Mr. C. Dietz and Mr. W. Orser on February 7, 1994, in which the U.S. Nuclear Regulatory Commission (NRC) concurred with the Carolina Power and Light (CP&L) Company's determination that the H. B. Robinson Nuclear Plant Unit 2, had successfully complied with the commitments made to the NRC as prerequisites to the restart of the unit.

In a letter from Mr. C. Dietz dated January 28, 1994, CP&L affirmed that the items specified in the NRC Confirmatory Action Letter dated November 19, 1993, had been completed. The NRC staff reviewed the preparations for restart, independently verified CP&L activities via inspection, and affirmed that the CP&L commitments had been complied with and that there were no significant regulatory issues open that would preclude the restart of Unit 2.

CP&L may proceed with the restart of Unit 2 in accordance with the agreed upon Startup and Power Ascension Plan, observing all hold points in the process.

Should you have any questions concerning this matter, please contact us.

Sincerely,

Stewart D. Ebnetter
Regional Administrator
