SERIAL: NL&RAS-94-053

Mr. Brian K. Grimes, Director
Division of Operating Reactor Support
Office of Nuclear Reactor Regulation
United States Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Grimes:

Carolina Power & Light Company (CP&L) has reviewed NRC Administrative Letter 94-07, "Distribution of Site-Specific and State Emergency Planning Information," which requested utilities provide copies of emergency preparedness information brochures and updated state and/or local emergency plan information to the Chief, Incident Response Branch.

CP&L understands the importance of ensuring that all parties responsible for responding to an event have access to sufficient information about a plant's emergency response program to make informed decisions and respond to inquires in a knowledgeable fashion. Therefore, CP&L will provide initial copies of the public information materials associated with its three nuclear plants immediately, and on an annual basis thereafter following the annual review/revision of these materials.

With respect to the request for provision of updated state and/or local Emergency Plans, CP&L is not in a position to provide these documents as they are the property and responsibility of the respective states and counties that surround our nuclear plants. We trust you can appreciate our position in this matter and the necessity for maintaining the proper relationships with the off-site authorities responsible for maintenance of their off-site emergency response programs. The following individuals should be contacted to request copies of updated state/county Emergency Plans:

Mr. Billy R. Cameron, Director
Division of Emergency Management
North Carolina Department of Crime Control and Public Safety
116 West Jones Street
Raleigh, NC 27603-1335

9407110299 940627

ADK 1/0

Mr. S. McKinney, Director
South Carolina Emergency Preparedness Division
Office of the Adjutant General
Rutledge Building
1429 Senate Street
Columbia, SC 29201

Please feel free to contact either me or Mr. Ronald Varley, our Director, Corporate Emergency Preparedness, at (919) 546-3678 if further support in this area is required.

Sincerely,

R. E. Rogan
Manager
Nuclear Licensing and Regulatory Affairs
