TRANSMITTAL OF EMERGENCY PLAN AND PROCEDURE REVISIONS

Gentlemen:

In accordance with 10 CFR 50, Appendix E, 10 CFR 50.54(q), and 10 CFR 50.4(b)(5), Carolina Power & Light (CP&L) Company transmits the enclosed revisions to the H. B. Robinson Steam Electric Plant (HBRSEP), Unit No. 2, Emergency Plan and Procedures.

CP&L has reviewed the changes to the Emergency Plan and determined that they do not decrease the effectiveness of the Plan, and that as changed, the Plan continues to meet the standards of 10 CFR 50.47(b) and the requirements of 10 CFR 50, Appendix E. Noteworthy changes to the Plan include a clarification of annual continuing training requirements, revision to schedule frequency definitions, addition of the Technical Analysis Director and new Accident Assessment reporting scheme, deletion of the requirement to perform two separate off-hours exercises, transferring radiation monitor R-15 from the effluent monitor list to the process monitor list, and the addition of worker dose limits to the procedure.
