SUBJECT: PLANT PERFORMANCE REVIEW - ROBINSON

Dear Mr. Hinnant:

This letter is to correct correspondence dated April 28, 1995, regarding the same subject.

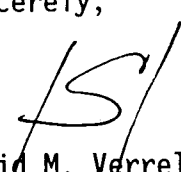

On March 13, 1995, NRC managers met to review recent performance at the Robinson facility to determine if our present planned inspection effort for the rest of the current SALP cycle should be revised before its end date of June 17, 1995. The purpose of this letter is to advise you of the results of that review.

We have determined that for the remainder of this SALP cycle, in addition to the two residents' inspections, we plan Regional inspections in the following areas:

Initial Exams (May 9, 1995)
Radiation Protection Outage Inspection (May 15-19, 1995)
Safeguards Inspection (May 22-26, 1995)
EOP and AOP Inspection (June 5-9, 1995)
SWS Followup (June 12-16, 1995)

It is our intent to continue semiannual performance reviews in addition to SALP and advise you of the results. Should you have any questions concerning this letter, please contact us.

Sincerely,

David M. Verrelli, Chief
Reactor Projects Branch 1A
Division of Reactor Projects
