NRC Names New Resident Inspector at Palo Verde Nuclear Generating Station

The Nuclear Regulatory Commission has selected David You as the new Resident Inspector at the Palo Verde Nuclear Generating Station. The plant is located in Wintersburg, Ariz.

“David You’s technical experience will assist the NRC in carrying out its mission to protect people and the environment by ensuring the safe operation of Palo Verde,” said NRC Region IV Administrator Marc Dapas.

You joined the NRC’s Region IV office in Arlington, Texas, in 2011. He worked as a project engineer in the Division of Reactor Projects. Prior to joining the NRC, he served in the U.S. Navy’s submarine force aboard the USS San Francisco. He holds a bachelor’s degree in mechanical engineering from the University of Arizona.

Each U.S. commercial nuclear power plant has at least two Resident Inspectors. You joins Senior Resident Inspector Tony Brown and Resident Inspector Dustin Reinert. They serve as the agency’s eyes and ears at the facility, conducting inspections, monitoring significant work projects, and interacting with plant workers and the public.

The Palo Verde Resident Inspectors can be reached at 623-386-3638.
